2. However, before doing goods registration in above Bills of Entry, the Importer approached Customs vide letter dated 09.10.2026 informing that the above consignments have been imported without Pre-shipment Inspection Certificates and

requested to have their consignments inspected by DGFT approved Pre-Shipment Inspection Agency.

3. Imports into India and exports out of India are regulated by Foreign Trade Policy notified by Government of India under Section 5 of the Foreign Trade (Development & Regulation) Act, 1992, as amended. Procedures to be followed by an exporter or importer or by any Licensing/Regional Authority or by any other authority for purposes of implementing provisions of FT (D&R) Act, and FTP are contained in Handbook of Procedures issued by Director General of Foreign Trade (DGFT) under Para 1.03 of FTP. Further, Para 2.32 of Foreign Trade Policy (FTP for short) read with Para 2.51 of Handbook of Procedures, requires that any consignment of any form of metallic waste or scrap coming to India is subjected to Inspection by a Pre-Shipment Inspection Agency, notified for the purpose by Directorate General of Foreign Trade, for confirming that the consignment does not contain hazardous, toxic waste, radioactive contaminated waste/scrap containing radioactive material, any types of arms, ammunition, mines, shells, live or used cartridge or any other explosive material in any form either used or otherwise. Para 2.32 of FTP and relevant clauses of Para 2.51 of Handbook of Procedures are reproduced below.

Para 2.32 of Foreign Trade Policy:
Import of any form of metallic waste, scrap will be subject to the condition that it will not contain hazardous, toxic waste, radioactive contaminated waste/scrap containing radioactive material, any types of arms, ammunition, mines, shells, live or used cartridge or any other explosive material in any form either used or otherwise as detailed in Para 2.51 of Handbook of Procedures.

Para 2.51 (d) of Handbook of Procedures (which deals with Scrap in un-shredded from)

(d) Import of un-shredded compressed and loose form of metallic waste, scrap shall be subject to the following conditions: -

(i) At the time of the clearance of goods, importer shall furnish to the Customs pre-shipment inspection certificate as per the format in Appendix 2H from any of the Inspection& Certification agencies given in Appendix-2G to the effect that the consignment does not contain any type of arms, ammunition, mines, shells, cartridges, or any other explosive material in any form either used or otherwise, and that the consignment was checked for radiation level and it does not contain radiation level (gamma and neutron) in excess of natural background. The certificate shall give the value of background radiation level at that place as also the maximum radiation level on the scrap.

4. Therefore, provisions of Para 2.32 of FTP and Para 2.51 (d)(i) of Handbook of Procedures (HBoP make it clear that any metallic scrap being imported into India is required to be inspected for presence of arms / ammunition and radioactive contaminated waste before shipment into India and the Importer has to produce A certificate in prescribed format (Appendix 2H) confirming these facts. The agencies which can carry out such inspections are notified by DGFT in Appendix G to HBoP.

5. Since, goods covered under Bills of Lading listed in Table A above have been imported into India without the valid PSIC certificates, the impugned goods are liable for confiscation under Section 111(d) of the Customs Act, 1962, for having been

imported in contravention of Provisions of Foreign Trade (Development & Regulation) Act, 1992 read with relevant provisions of FTP and HBoP. Further, since the M/s. Mangalam Worldwide Limited, 102 Mangalam Corporate House, 42 Shrimali Society, Netaji Marg, Mithakhali, Navarangpura, Ahmedabad-380009, Gujarat, India have failed to follow procedure prescribed, under Foreign Trade Policy, for import of metallic scrap, they have rendered the goods liable for confiscation under Section 111 (d) and are thus liable for penalty under Section 112(a) (i) of the Customs Act, 1962.

6. As per request of the Importer vide letters dated 09.10.2026, the goods were allowed to be inspected by PSIA post import and first check examination by Customs was conducted. The consignments have been inspected by PSIA M/s. Global Marine Inspection in ICD Khodiyar and as per PSIC issued by said PSIA the import consignments are, inter alia, found free from arms / ammunition and radiation levels are within normal limits.

f. BoE 4368342 dated 12.10.2026

The Customs examination has also found the goods as per declared description. The Importer has also provided copies of Sales Contracts dated 14.09.2026 and 21.09.2026 vide which, inter alia, mention that the consignment will not contain hazardous; toxic waste, radioactive contaminated waste/ scrap containing radioactive material, any type of arms, ammunition, mines, shells, live or used cartages or any other explosive material in any form either used or otherwise.

RECORD OF PERSONAL HEARING AND SUBMISSION OF IMPORTER

7. Importer vide letter dated 09.10.2026 had, inter-alia, conveyed their willingness to pay any penalty / fine and requested for waiver of Show Cause Notice and Personal Hearing. However, notwithstanding the request for waiver of Show Cause Notice and personal hearing, an opportunity of personal hearing was afforded

in the interest of natural justice. Accordingly, Shri Madhusudan Menon, authorised representative of M/s. Mangalam Worldwide Limited, attended the personal hearing held on 26.10.2026 and reiterated the submissions furnished earlier vide letter dated 09.10.2026.

DISCUSSION AND FINDINGS

8.1 I have carefully gone through the facts of the case. I find that M/s. Mangalam Worldwide Limited, 102 Mangalam Corporate House, 42 Shrimali Society, Netaji Marg, Mithakhali, Navarangpura, Ahmedabad-380009, Gujarat, India (details as per Table-A) and for custom clearance thereof, one Bill of Entry (as detailed in Table-B) has been filed. However, instead of proceeding for customs clearance, the Importer approached Customs, informing that the consignment of metallic scrap have been imported without Pre Shipment Inspection Certificate due to procedural and system-related constraints at load port.

8.2 I find that the provisions of Foreign Trade Policy (Para 2.32) read with Handbook of Procedures (Para 2.51) quoted in foregoing paras make it clear that consignments of metallic scrap have to be inspected by a Pre-Shipment Inspection Agency in the country of export itself for confirming that it does not contain hazardous, toxic waste, radioactive contaminated waste/scrap containing radioactive material, any types of arms, ammunition, mines, shells, live or used cartridge or any other explosive material. Para 2.51 (d) (v)(vi) of HBoP makes it more clear, which states Import consignments of metallic waste and scrap shall be subject to pre-shipment inspection certificate (PSIC) from the country of origin.

8.3 The importer even though have voluntarily informed the fact of consignments not being accompanied by PSIC and the consignment upon post import inspection at ICD Khodiyar by PSIA have been found to be free from arms / ammunition / radioactive material, the provisions of Foreign Trade (Development & Regulation) Act, 1992 read FTP and HBoP have been contravened by the Importer by importing of metallic scrap into India without accompanied by valid PSIC. As such, I find that the subject import goods, are liable for confiscation under Section 111(d) of the Customs Act, 1962. The failure to follow procedure prescribed, under Foreign Trade Policy, for import of metallic scrap, is a clear omission on part of the Importer M/s. Mangalam Worldwide Limited, Therefore, M/s. Mangalam Worldwide Limited are liable for penalty under Section 112 (a)(i) for having rendered the goods liable for confiscation. However, I find that the Importer did not intend to clear the consignments without prescribed inspection by PSIA and I also find that for this procedural breach the importer had voluntarily informed the fact to Customs Department. The requirement of FTP & HBoP have also been met after completion of post import inspection of goods by PSIA. The Importer vide letter dated 09.10.2026 has also provided copy of Sales Contracts in respect of the impugned consignment which, inter alia, contain the clause that the consignment does not contain hazardous; toxic waste, radioactive contaminated waste/ scrap containing radioactive material, any type of arms, ammunition, mines, shells, live or used cartages or any other explosive material in any form either used or otherwise. In light of these facts I am inclined to be lenient in imposing fine and penalty on the Importer.

9. In view of the foregoing discussions and findings, I pass the following order:

ORDER

i. I order for confiscation of the impugned goods under Section 111(d) of the Customs Act, 1962, details as below:
