An appeal against this order shall lie before the Commissioner (A) on payment of 7.5% of the duty demanded where duty or duty and penalty are in dispute, or penalty, where penalty alone is in dispute.

BRIEF FACTS OF THE CASE

M/s. ESWARI GLOBAL METAL INDUSTRIES LIMITED, having its factory at Plot No. 415 & 416 / Plot No. 414, Industrial Area, Baikampady, Mangalore, Karnataka - 575011 (IEC: 0704017245) (hereinafter referred to as the 'Importer'), imported consignments of LEAD WASTE AND SCRAP (HS Code 78020090) and LEAD SCRAP AS PER ISRI RADIO (HS Code 78020010) from M/s. SUHAIL BATTERY RECYCLING FACTORY LLC, Doha, Qatar, covered under Bills of Lading Nos. HMDMUN26183048 and HMDMUN26183056, respectively. For clearance of the said consignments, Bill of Entry No. 4396778 dated 13.10.2026 was filed through Customs Broker M/s. SHAKTI FORWARDERS PVT LTD, as detailed in Table-A and Table-B below.

Table-A

Sr. No.	Bill of Lading	Description of goods	Gross Qty. (KGS)	COO of goods	Invoice No. and Date
1	HMDMUN26183048 dated 29.09.2026	LEAD WASTE AND SCRAP (HS Code 78020090)	100,002 KGS	QATAR	RBRF2026CI00043 dated 28.09.2026
2	HMDMUN26183056 dated 29.09.2026	LEAD SCRAP AS PER ISRI RADIO (HS Code 78020010)	50,001 KGS	QATAR	RBRF2026CI00042 dated 28.09.2026

Table-B

Sr. No.	BE & Date	Gross Qty (Kgs)	Invoice value (USD)	BE filed by CB
1	4396778 dated 13.10.2026	150003	192503.85	M/s. SHAKTI FORWARDERS PVT LTD

2. However, before doing goods registration in above Bills of Entry, the Importer approached Customs vide letter dated 13.10.2026 informing that the above consignments have been imported without Pre-shipment Inspection Certificates and requested to have their consignments inspected by DGFT approved Pre-Shipment Inspection Agency.

3. Imports into India and exports out of India are regulated by Foreign Trade Policy notified by Government of India under Section 5 of the Foreign Trade (Development & Regulation) Act, 1992, as amended. Procedures to be followed by an exporter or importer or by any Licensing/Regional Authority or by any other authority for purposes of implementing provisions of FT (D&R) Act, and FTP are contained in Handbook of Procedures issued by Director General of Foreign Trade (DGFT) under Para 1.03 of FTP. Further, Para 2.32 of Foreign Trade Policy (FTP for short) read with Para 2.51 of Handbook of Procedures, requires that any consignment of any form of metallic waste or scrap coming to India is subjected to Inspection by a Pre-Shipment Inspection Agency, notified for the purpose by Directorate General of Foreign Trade, for confirming that the consignment does not contain hazardous, toxic waste, radioactive contaminated waste/scrap containing radioactive material, any types of arms, ammunition, mines, shells, live or used

cartridge or any other explosive material in any form either used or otherwise. Para 2.32 of FTP and relevant clauses of Para 2.51 of Handbook of Procedures are reproduced below.

Para 2.32 of Foreign Trade Policy:

Import of any form of metallic waste, scrap will be subject to the condition that it will not contain hazardous, toxic waste, radioactive contaminated waste/scrap containing radioactive material, any types of arms, ammunition, mines, shells, live or used cartridge or any other explosive material in any form either used or otherwise as detailed in Para 2.51 of Handbook of Procedures.

Para 2.51 (d) of Handbook of Procedures (which deals with Scrap in un-shredded from)

(d) Import of un-shredded compressed and loose form of metallic waste, scrap shall be subject to the following conditions:

(i) At the time of the clearance of goods, importer shall furnish to the Customs pre shipment inspection certificate as per the format in Appendix 2H from any of the Inspection& Certification agencies given in Appendix-2G to the effect that the consignment does not contain any type of arms, ammunition, mines, shells, cartridges, or any other explosive material in any form either used or otherwise, and that the consignment was checked for radiation level and it does not contain radiation level (gamma and neutron) in excess of natural background. The certificate shall give the value of background radiation level at that place as also the maximum radiation level on the scrap.

4. Therefore, provisions of Para 2.32 of FTP and Para 2.51 (d)(i) of Handbook of Procedures (HBoP) make it clear that any metallic scrap being imported into India is required to be inspected for presence of arms / ammunition and radioactive contaminated waste before shipment into India and the Importer has to produce a certificate in prescribed format (Appendix 2H) confirming these facts. The agencies which can carry out such inspections are notified by DGFT in Appendix 2G to HBoP.

5. Since, the goods covered under the Bill of Lading listed in Table-A above have been imported into India without the valid PSIC certificate, the impugned goods are liable for confiscation under Section 111(d) of the Customs Act, 1962, for having

been imported in contravention of provisions of Foreign Trade (Development & Regulation) Act, 1992 read with relevant provisions of FTP and HBoP. Further, since the Importer M/s. ESWARI GLOBAL METAL INDUSTRIES LIMITED have failed to follow the procedure prescribed under Foreign Trade Policy for import of metallic scrap, they have rendered the goods liable for confiscation under Section 111(d) and are thus liable for penalty under Section 112(a)(i) of the Customs Act, 1962.

6. As per the request for destination inspection, the goods were allowed to be inspected by a DGFT-approved PSIA post import. The consignments were inspected by M/s. Global Marine Inspection, (522, 5TH Floor, Building No. 89, Hemkund Chamber, Nehru Place, New Delhi, 110019, and Post-Shipment Inspection Certificate No. IN11202686059 dated 19.10.2026 was issued for LEAD WASTE AND SCRAP (HS Code 78020090), quantity 100.002 MT, and Certificate No. IN11202686060 dated 19.10.2026 was issued for LEAD SCRAP AS PER ISRI RADIO (HS Code 78020010), quantity 50.001 MT. Both certificates state that the consignment does not contain any type of arms, ammunition, mines, shells, cartridges, or any other explosive material in any form, either used or otherwise, and that the consignment was checked for radiation level and it does not have radiation levels (gamma and neutron) in excess of natural background, Following are the values of:-

(i) Background radiation level at the place of examination is 0.08 µSv/h.

(ii) Maximum radiation level on the scrap is 0.06 µSv/h.

RECORD OF PERSONAL HEARING AND SUBMISSION OF IMPORTER

7. Importer vide letter dated 13.10.2026 had, inter-alia, conveyed their willingness to pay any penalty / fine and requested for waiver of Show Cause Notice and Personal Hearing.

DISCUSSION AND FINDING

-

8.1 I have carefully gone through the facts of the case. I find that M/s. ESWARI GLOBAL METAL INDUSTRIES LIMITED (IEC: 0704017245) and for customs clearance thereof, one Bill of Entry No. 4396778 dated 13.10.2026 has been filed. However, instead of proceeding for customs clearance, the Importer approached Customs, informing that the consignment of lead scrap have been imported

without Pre Shipment Inspection Certificate due to procedural and system-related constraints and unavailability of the nominated surveyors in Qatar. Now, I find that goods were imported into India without a PSIC certificate. I also find that the Importer waived their right to a Show Cause Notice and Personal Hearing.

8.2 Now, I take up the above matter in detail. I find that the goods imported vide the said Bill of Entry required a compulsory PSIC certificate for import into India, in terms of the guidelines issued by DGFT in para 2.51, 2.52 & 2.53 of the Handbook of Procedure 2023. However, in the present case, the importer has voluntarily informed that the consignments were not accompanied by PSIC due to the unavailability of the nominated surveyors in Qatar; however, as per DGFT guidelines, PSIC must accompany the imported consignment.

8.3 Since goods were imported into India without a PSIC certificate, the impugned goods have been imported without authorization and therefore are liable for confiscation under Section 111(d) of the Customs Act, 1962, and for this act of omission and commission, the importer is liable for penalty under Section 112(a) of the Customs Act, 1962. Since the Importer has submitted the Post PSIC certificate No. IN11202686059 dated 19.10.2026 and IN11202686060 dated 19.10.2026 issued by M/s. Global Marine Inspection, (522, 5TH Floor, Building No. 89, Hemkund Chamber, Nehru Place, New Delhi, 110019, INDIA at Mundra Port, Gujarat on 21.10.2026, the goods can be cleared for home consumption under Section 125(1) of the Customs Act, 1962.

9. Accordingly, I pass the following order:

ORDER

I . I order for confiscation of the impugned goods i.e. 100.002 MT of LEAD WASTE AND SCRAP (HS Code 78020090) and 50.001 MT of LEAD SCRAP RADIO (HS Code 78020010), having Assessable Value of Rs. 1,86,63,248/- sought clearance under Bill of Entry No. 4396778 dated 13.10.2026, under Section 111(d) of the Customs Act, 1962. However, I give the importer an option under provision of Section 125(1) of the Customs Act, 1962, to redeem the said goods on payment of redemption fine of Rs. 50,000/- (Rupees Fifty Thousand only).

II. I impose a penalty of Rs.25,000 /- (Rupees Twenty Five Thousand only) on Importer, M/s. ESWARI GLOBAL METAL INDUSTRIES LIMITED, Plot No. 415 &

416 / Plot No. 414, Industrial Area, Baikampady, Mangalore, Karnataka - 575011, under Section 112(a)(i) of the Customs Act, 1962.

-

10. This Order is issued without prejudice to any other action that may be taken against the Importer or other in respect of the imported goods under the provisions of the Customs Act, 1962 or any other law for the time being in force in India.
