Trade Notice No: 02/2026-27**Subject:** Testing of samples of Export Consignments – regarding.

Attention of all Exporters, Customs Brokers and Trade Members is invited to CBIC Circular No. 28/2026-Customs (F. No. 401/243/2026-Cus.III), along with Circular No. 43/2017-Customs dated 16.11.2017, Circular No. 11/2018-Customs dated 17.05.2018, and Circular No. 46/2020-Customs dated 15.10.2020. To facilitate trade and eliminate duplicate testing delays for export consignments, the Board has prescribed the following guidelines:"

- **Acceptance of Voluntary Reports:** In respect of export consignments, exporters may obtain test reports from NABL-accredited laboratories, accredited laboratories recognised by Export Promotion Councils (EPCs) or other recognised agencies for purpose of fulfilling regulatory requirements of the importing country. In cases Where such test reports are submitted for compliance and there is no specific intelligence or risk-based intervention, the proper officers shall take such test reports into consideration without mandatorily forwarding samples to the Central Revenues Control Laboratory (CRCL).
- **Risk/Intelligence Cases:** In cases involving risk-based intervention or specific intelligence, officers will continue to follow existing procedures for sample withdrawal and testing, including referrals to CRCL.
- **Import Consignments:** Testing protocols and procedures for import consignments remain unchanged; import samples shall be drawn and sent to CRCL or other accredited laboratories as per existing instructions.

Any difficulties faced in implementing this Trade Notice should be brought to the immediate attention of the undersigned.

This issues with the approval of the Commissioner.

Additional Commissioner (DE)
